The Fleurieu Neighbourhood Network (FNN) has established the Victor Harbor Seniors Information Service offering :

- Support
- Connection
- Trusted free independent information on services for Fleurieu seniors

The FNN was originally established by COTA SA and it is now operating an independent information service run by committed local volunteers with the support of COTA SA and the City of Victor Harbor.

Our Victor Harbor Seniors Information Service operates from our hub in the foyer of the Victor Harbor Library.

FNN can also offer pop-up information services at local events across the Fleurieu and can provide a speaker at local clubs and share information about key services for seniors in the region.

Volunteering with FNN is also a great opportunity if you enjoy connecting with others and sharing information.

Drop in to say hello at the Victor Harbor Library Hub
on Tuesdays from 11am – 1pm or email FNN
FNNSeniorshub@outlook.com

Telephone messages can also be left at COTA SA on
08 8232 0422 or freecall 1800 182 324.

Fleurieu Neighborhood Network

About us

The Fleurieu Neighborhood Network (FNN) was established by COTA SA to help connect seniors living on the Fleurieu to make connections with each other.

There are many great services and activities for seniors but finding out about them can be a challenge!

As a result, we decided to operate local information hubs in council libraries and offer pop up information hubs at local events like the Port Elliot Show.

The FNN is now run as a voluntary unfunded service by a dedicated group of volunteers as the demand for a seniors information service is clear.

Whether you are looking for a friendly chat or information on relevant local services and activities, drop into our info hub and chat to one of our trained volunteers.

New volunteer information officers are always welcome too so we can expand our services to more times and locations across the region.
