

Rainbow Horizons - inclusive end of life care + planning

We're fostering intergenerational support for end of life planning, care and dying in LGBTI+ communities

COTA SA, through its Rainbow Hub, has delivered the **Rainbow Horizons Project**, with support from Office for Ageing Well, that aims to:

- facilitate conversations between LGBTI+ community members about end of life care, planning and dying, between LGBTI elders and younger members of the LGBTI community
- design and trial an intergenerational LGBTI+ 'compassionate community' model that supports end of life care, planning and dying
- engage with relevant service providers who might support LGBTI+ 'compassionate community' members, such as funeral businesses, aged care providers and palliative care services.
